Project Description: This is a contract for the purchase and delivery of Hot Mix to locations within Coke County. Request for material will be made through independent work orders.

ITEM 4: SCOPE OF WORK

This contract may be extended per special provision 004-004.

ITEM 8: PROSECUTION AND PROGRESS

Prior to beginning operations, the Department will arrange a preconstruction conference between representatives of the Department and the Contractor. In this meeting, the representatives from all parties will discuss the contract, proposed procedures, and the plans for performing the work while providing for safe passage of traffic at all times. Specifications, unusual conditions, and other pertinent items regarding the work will also be discussed.

Materials requested shall be issued by work order. Each work order shall specify items, quantity, and location for materials to be delivered.

Contract time charges shall begin on the date specified for delivery in each individual Work Order letter.

Once an order for material has been placed and the delivery date and time has been agreed upon, the contractor will deliver the specified material on the date and time specified. If delivery has not been completed within 24 hours of the agreed upon date and time, liquidated damages in accordance with special provision 000-658 will be assessed.

ITEM 9: MEASUREMENT AND PAYMENT

Various bid items and their associated quantities have been provided within this Contract in order to establish bid prices for the proposed work. Actual work performed as directed will be paid utilizing these prices with no further compensation made regardless of the final quantities.

In addition to the complete destination address, each delivery ticket must be clearly marked with the work order number. Each shipment must be accompanied by a haul ticket.

ITEM 8006: SUPERPAVE MIXTURES (MATERIALS ONLY)

When using crushed gravel as a coarse aggregate for ACP, use 1% lime as an antistripping agent.

Give the State inspector at the spreading and finishing machine one weight ticket for each load of material. When directed, weigh asphaltic concrete loads on public scales to ensure the proper weight of material.

For materials paid for by the ton, provide a summary spreadsheet in accordance with Article 520.2, "Equipment."

Refer to the table below for site location and contacts.
