**Project Description** – This project shall consist of the purchase and delivery of Emulsion, (Material Only), to TxDOT maintenance section yards or specified locations within the Laredo District. Request for material will be made through independent work orders.

Prior to beginning operations, the Department will arrange a coordination call between representatives of the Department and the Contractor. In this meeting, the representatives from all parties will discuss the Contract, proposed procedures, and plans for performing the work while providing safe passage for traffic at all times. Specifications, unusual conditions, and other pertinent items regarding the work will also be discussed. Limit the use of the roadway for the hauling of material to legal loads. Keep the traveled surfaces used in hauling operations free of dirt or other materials.

This is a 1-year contract (365 Calendar Days). If agreed upon in writing by both parties to the contract, the contract may be extended for an additional period of time not exceeding the original contract time period. The extended contract shall be for the original bid quantities, terms, and conditions plus any approved, applicable change orders.

No deliveries will be allowed on the weekends which include the following holidays: January 1, the last Monday in May, July 4, the first Monday in September, the fourth Thursday in November, December 25, and Easter weekend.
