GENERAL NOTES:

General:

Contractor questions on this project are to be addressed to the following individual(s):

Jason R. Dupree, P.E. – Director of Maintenance

Jason.Dupree@txdot.gov

Charlotte Aslin – Maintenance Program Specialist

Charlotte.Aslin@txdot.gov

Questions may be submitted via the Letting Pre-Bid Q&A web page. This webpage can be accessed from the Notice to Contractors dashboard located at the following Address:

<https://tableau.txdot.gov/views/ProjectInformationDashboard/NoticetoContractors>

All contractor questions will be reviewed by the Engineer. All questions and any corresponding responses that are generated will be posted through the same Letting Pre-Bid Q&A web page.

The Letting Pre-Bid Q&A web page for each project can be accessed by using the dashboard to navigate to the project you are interested in by scrolling or filtering the dashboard using the controls on the left. Hover over the blue hyperlink for the project you want to view the Q&A for and click on the link in the window that pops up.

Questions regarding the plans and/or the project after the contract has been awarded should be referred to the Managing Engineer:

Jason R. Dupree, P.E.

Atlanta District Director of Maintenance

701 E Main St.

Atlanta, TX 75551

903-799-1248

The intent of this contract is to provide hot mix materials at non-site specific locations within the Linden Maintenance Office area limits. The contractor will provide materials: at the hot mix plant to be loaded into Department owned trucks or Department contracted trucks (pick up), or in a contractor truck to a designated location as defined in the Work Order (delivery).

A map of the Linden Maintenance Office geographic limits is included in this contract.

Each contract awarded by the Department stands on its own and as such, is separate from other contracts. A Contractor awarded multiple contracts must be capable and sufficiently staffed to concurrently process any or all contracts.

County: Cass

Control: 6473-70-001

Highway: US 59, etc.

Department-approved safety hats and safety vests will be worn by all workers and visitors when:

Workers are outside of vehicles at all outdoor worksites. This includes those who occasionally visit worksites either on the highway surface or right-of-way.

Working in areas where there is a danger of head injury from impact, from falling or flying objects, or from electrical shock or burns.

Non-compliance with this requirement will be grounds for suspension of work.

All work on this contract will be scheduled and directed by the Maintenance Section Supervisor James Barron Jr., 903-756-5031

Notify the Maintenance Supervisor when encountering any unforeseen delays.

Item 10: Maintenance and Traffic Materials Contracts

This project includes plan sheets that are not part of the bid proposal. Views plans on-line or download from the web at: <https://www.txdot.gov/business/letting-bids/plans-online.html>.

Order plans from any of the plan reproduction companies shown on the web at: http://www.dot.state.tx.us/business/contractors_consultants/repro_companies.htm.

This Contract includes non-site specific work. Multiple work orders will be used to procure work of the type identified in the contract at locations that have not yet been determined. Time requirements for the non-site specific work orders will be indicated on each individual Work Order

Prior to beginning operations, the Department will arrange a coordination call between representatives of the Department and the Contractor. In this call, the representatives from all parties will establish points of contact for communication, an issue escalation ladder, delivery location details, and other Contract requirements.

Limit the use of the roadway for the hauling of material to legal loads. Keep the traveled surfaces used in hauling operations free of dirt or other materials.

In accordance with Article 10.4.3.1, this contract may be extended once not to exceed 360 calendar days for the entire contract term if mutually agreed.

There are 180 calendar days on this contract. Calendar days will be charged in accordance with Article 10.8.2., "Contract Term".

Furnish the tare and maximum gross weights as well as the volume capacity of all vehicles, trucks, truck-tractors, trailers, semi-trailers, or combination of such vehicles used to deliver materials for the contract. Also, furnish calculations supporting these weights and capacities. Provide all measurements required for pay a minimum of 2 days before the equipment is used.

County: Cass

Control: 6473-70-001

Highway: US 59, etc.

Contractor is responsible for obtaining annual overweight tolerance permit if hauling material which exceeds the legal road weight.

In addition to the complete destination address, each delivery ticket must be clearly marked with the work order number. Each shipment must be accompanied by a haul ticket.

Contractor's driver shall report to the State's representative at the time of arrival at the final delivery location and obtain a signature documenting the date and time.

Contractor must provide a conversion factor to convert hot mix from tons to cubic yards.

The minimum call out per work for delivered mix will be 20 tons.

Item 500: Mobilization

Mobilization does not apply to this non-site specific materials contract.

Item 502: Barricades, Signs and Traffic Handling

TxDOT will provide any traffic control needed.

Use strobe lights or rotating beacons on all motorized equipment, operating on or adjacent to the road surface.

Item 8011: Dense Graded Hot-Mix Asphalt (Materials Only)

Monitor the temperature of the material in the truck before shipping to ensure that it does not exceed 350°F and is not lower than 215°F at delivery. The Department will not pay for or allow placement of any mixture produced above 350°F.

No RAS will be accepted in the mix design for this contract. Use aggregate that meets the SAC requirement of Class A.

Binder substitution is limited to a reduction in one high temperature grade. This limitation does not apply to low temperature grade. Binder substitution is allowed when aged recycled binder is used.

Use field sand with a sand equivalent value of at least 35 when sampled and tested in accordance with TEX-203-F.

The Plant is the designated aggregate sampling location, unless otherwise approved by the Engineer.

Project Number: A00212254

Sheet

County: Cass

Control: 6473-70-001

Highway: US 59, etc.

For Hauling Operations:

- Supply tarp and all components necessary to tarp materials during transport.
- Document wait time, in excess of one hour, when required to remain at a TxDOT designated location until unloaded. Demurrage charges shall be invoiced in 15 minute increments.
- Make all deliveries between the hours of 8:00am and 4:00pm CST unless prior arrangements have been made with the Maintenance Supervisor.
