DIRECTOR OF MAINTENANCE

County: Jim Wells

Control: 6475-94-001

GENERAL NOTES:

This contract shall commence upon the issuance of a work order by the Director of Maintenance or his representative and shall continue for 180 calendar days. This project consists of described word defined with item 8010 “Flexible Base (Materials Only)”, the 2024 Texas Standard Specifications, General Notes and Plans. See estimate and quantity sheet for type and quantity of materials.

This purpose of this contract is to supply Flex Base (Site Del) (TY A GR 1-2) (Site 1) at the following locations:

Site 1	Alice Maintenance Office – 1071 N. US Hwy 281, Alice, TX 78332
--------	--

Coordinate work through the following individuals:

Area Engineer	Address	Contact Person
Eric Martinez, P.E. Area Engineer	1071 North US Hwy 281 Alice, TX 78332	Eric Martinez, P.E. Eric.Martinez@txdot.gov
Lucia Adame, P.E. Assistant Area Engineer	1071 North US Hwy 281 Alice, TX 78332	Lucia Adame Lucia.Adame@txdot.gov
Maintenance Section	Address	Maintenance Supervisor
Cal Mora, Jr. Maintenance Supervisor	1071 North US Hwy 281 Alice, TX 78332	Cal Mora, Jr. Cal.Mora@txdot.gov

Section 10.2 - Instructions to Bidders:

This project includes plan sheets that are not part of the bid proposal. View or download plans at: <https://www.dot.state.tx.us/business/plansonline/ftpinfo.htm>

All Contractor questions will be reviewed by the Engineer. Once a response is developed, it will be posted to TxDOT's Public FTP at the following address:

<https://ftp.dot.state.tx.us/pub/txdot-info/Pre-Letting Responses/>

All questions submitted that generate a response will be posted through this site. The site is organized by District, Project Type (Construction or Maintenance), Letting Date, CCSJ/Project Name.

County: Jim Wells

Control: 6475-94-001

Questions may be submitted via the Letting Pre-Bid Q&A web page. This webpage can be accessed from the Notice to Contractors dashboard located at the following Address:

<https://tableau.txdot.gov/views/ProjectInformationDashboard/NoticetoContractors>

All contractor questions will be reviewed by the Engineer. All questions and any corresponding responses that are generated will be posted through the same Letting Pre-Bid Q&A web page.

The Letting Pre-Bid Q&A web page for each project can be accessed by using the dashboard to navigate to the project you are interested in by scrolling or filtering the dashboard using the controls on the left. Hover over the blue hyperlink for the project you want to view the Q&A for and click on the link in the window that pops up.

SECTION 10.6 – CONTROL OF MATERIALS:

The Contractor is responsible for furnishing and delivering the Flexible Base Materials to the agreed upon location(s). The delivery hours will be established during the pre-construction meeting. Contractor shall furnish all material in accordance with applicable specifications, test methods and general notes in the Contract and as directed by the Engineer.

Materials not meeting Contract requirements will be rejected unless the Engineer approves corrective actions. Upon rejection, immediately remove and replace rejected materials.

Section 10.8 - Prosecution and Progress:

Contract time charges shall begin upon issuance of "Authorization to Begin Work" or "Time Charges to Begin" letter whichever comes first within the 30 days of the Activation Notice that will be sent from the DMO. This contract is for one-hundred and eighty (180) calendar days and shall be computed and charged in accordance with Article 10.8.2, "Contract Term".

All material delivery tickets must include the Work Order number and be signed, dated, and list the arrival/departure times by the Department representative upon arrival at final delivery location.

In the event of a delay in delivery of materials notify the Maintenance Supervisor for the work order immediately by phone and provide documentation, in writing, to the office of record upon completion of delivery.

Failure to complete a work order will incur damages in accordance with Article 10.8.6. Actual damages incurred will be deducted from the work order payment and calculations will be provided upon request.

County: Jim Wells

Control: 6475-94-001

SECTION 10.9 – MEASUREMENT AND PAYMENT:

Contractor is responsible for obtaining annual overweight tolerance permit if hauling material which exceeds the legal road weight.

Trucks may be held up for 2-hours at the jobsite at no additional expense to the Department. Written documentation of arrival will be used when calculation demurrage charges and included on an invoice submitted to the managing office. The Department will specify the arrival time and delivery frequency on the work order provided to the Contractor. If the Contractor arrives prior to the specified delivery time, the 2-hour hold will not begin until the arrival time specified on the work order.

Demurrage charges (an amount billed to the Department when the vendor incurs a wait time of more than two hours) Written documentation of arrival will be used when calculating demurrage charges and included on an invoice submitted to the managing office. Contractor will provide demurrage rate per truck, per 15-min increment, and the Coordination call prior to beginning work on the Contract. Demurrage charges will be invoiced in 15-min increments, rounded down to the nearest whole increment. Contractor will be required to provide documentation for the demurrage per truck.

Actual Damage charges (when a vendor is unable to meet delivery requirement and TxDOT suffers a verifiable loss as a result.) If advanced notice is not approved and the Department must obtain material through another source, the Department could seek damages for any costs exceeding the Contract bid items.

ITEM 8010 – Flex Base (Materials Only)

For Table 1, “Material Requirements” a minimum plasticity index (PI) of 4 is required for Ty A Gr 1-2 Flex Base. FL BS (SITE DEL) (TY A GR 1-2) (SITE 1) Alice Maintenance Office.

Deliver Flex Base to the location in belly dumps or end dumps as directed by Maintenance Supervisor.

There will usually be two rounds of material delivered each day. Schedule the trucking so that all the trucks ordered for each round of trucks arrive at the site around the same time. No truck will be dumped and allowed to leave the construction site until all the trucks ordered for that round have arrived on the site.
